# SURGE SUPPRESSION & LIGHTNING PROTECTION

## Zeus E.S.E & Zeus Electrostatic Air Terminal

ZEUS E.S.E ( Early Streamer Emission) Air Terminal is made for direct lightning strike protection. The Zeus E.S.E Air Terminal to use insulated down conductor cable to minimize the side flash and induced lightning current. The Zeus Air Terminal is tested at Lightning Research Station owned by ITB Bandung Institute of Technology in Mount Tangkuban Perahu West-Java and comply to IEC Test Standard. The ZEUS E.S.E Air terminal is easy to install and economical to use. ZEUS produces also the Electrostatic Air Terminal type which is more economical to cover small area.

- Shielded Down Conductor Cable
- Inductance:  $\leq 0.413 \mu\text{H}/\text{m}$
- Nominal Size:  $50\text{mm}^2/20\text{kV}$
- Approx. Outer Areas:  $50\text{mm}^2$

- Shielded Down Conductor Cable
- Inductance:  $\leq 1.5 \mu\text{H}/\text{m}$
- Nominal Size :  $50 \text{ mm}^2/\text{kV}$
- Approx. Outer Areas:  $50 \text{ mm}^2$
